Brandon, SD 57005

December 30, 2025

Dear valued owner and customer,

With our new state-of-the-art facility at Worthing, S.D., now operational, we have made the decision to move our Canton, S.D., facility to a seasonal harvest facility. Effective February 1, 2026, the Canton facility will only receive grain from September through November.

The new grain shuttle facility in Worthing is strategically positioned to serve our customers long-term. We have invested in infrastructure there to support the flow of grain from the Upper Midwest to export terminals in the Pacific Northwest and the Texas Gulf.

Grant Lanning will continue to serve as the local grain originator, officing in Canton. Please continue to contact him for your grain needs.

Our goal is to make this transition as smooth as possible for you. For questions about this change, please contact me at 605-990-7045.

This is part of our commitment to having the right resources in the right locations to position our cooperative to deliver value for customers and owners, today and into the future.

As always, thank you for your patronage and support. If you have any questions, please don't hesitate to reach out.

Sincerely,

Ben Lyden
Senior Director of Operations
CHS
